Getting to Know Your Atlas

Lesson 1: Reference Skills

WORLD FACTS

1. Use the World Facts information on the inside cover of your Nystrom World Atlas to answer the following questions.

   a. Which continent makes up about 30% of the world’s land area? ____________________________
   
   b. What is the highest point in South America? ____________________________
   
   c. Which ocean is the largest in area? ____________________________
   
   d. How many of the world’s largest lakes are in North America? ____________________________

2. Fill in the table below with the two largest urban areas. What are the projected populations for these urban areas in 2015?

<table>
<thead>
<tr>
<th>Urban Area</th>
<th>Population in 2015</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

3. Use the Table of Contents on page 2. This page directs you to the various atlas sections. Draw a line connecting each section below with the page on which it begins.

<table>
<thead>
<tr>
<th>Atlas Section</th>
<th>Page Number</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. Asia *</td>
<td>* 26</td>
</tr>
<tr>
<td>b. Index of Places *</td>
<td>* 80</td>
</tr>
<tr>
<td>c. North America *</td>
<td>* 84</td>
</tr>
<tr>
<td>d. Middle East *</td>
<td>* 102</td>
</tr>
<tr>
<td>e. Pacific Rim *</td>
<td>* 110</td>
</tr>
</tbody>
</table>

REFERENCE AND THEMATIC MAPS

4. Use In This Atlas on pages 3–5 to complete the following sentences.

   a. Places beyond a Land Cover Map’s subject area are in a ________________ color.
   
   b. On a Political Map, the names of countries, states, and large cities are ________________.
   
   c. The colors on an Elevation Map show land elevations and water ________________.
   
   d. The thematic maps that are repeated for each continent are Elevation, Annual Rainfall, ________________, Land Use, and ________________.
5. Use the Land Cover Map legend on page 3 to complete the following sentences.
   a. Cropland is represented by the color ____________________.
   b. Glaciers and polar sea ice are represented by the color ____________________.

6. Use the Political Map legend on page 3 to answer the following questions.
   a. What does a small black square represent? ____________________
   b. For city labels, what do the sizes of dots and letters indicate? ____________________

7. Use the Elevation Map legend on page 4 to determine what each symbol below represents. Write the description next to the symbol.
   a. ▲ ____________________
   b. ◆ ____________________
   c. ---- ____________________

MAP PROJECTIONS
8. Use the Map Projections on pages 106–107 to answer the following questions. Circle the correct answers.
   a. Which map projection shows true shape but distorts size?
      - conformal projection
      - equal-area projection
      - compromise projection

   b. Which map was first published in 1569?
      - Miller Cylindrical
      - Goode’s Homolosine
      - Mercator

   c. Which compromise map gives the impression of having been peeled from a globe?
      - Gall-Peters
      - Armadillo
      - Winkel Tripel

   d. Which map is a compromise between the Mercator and the Mollweide?
      - Gall-Peters
      - Miller Cylindrical
      - Van der Grinten

THEMATIC INDEX
9. Use the Thematic Index of maps and graphs on the inside back cover to find the correct page numbers for the maps below. Cross out the incorrect page numbers.
   a. World Climate map: pages 12–13 _pages 18–19
   b. Ring of Fire map: page 102 _page 110
   c. Middle East Oil Fields map: page 81 _page 91
   d. U.S. Highways map: page 38 _page 48
Getting to Know Your Atlas
Lesson 2: Glossary and Index

GLOSSARY

1. Turn to the Glossary on pages 108–109. The Glossary is an alphabetical listing of geographic terms from the atlas and their definitions. Use the Glossary definitions of the terms in bold to answer the following:
   a. What surrounds a basin?
   b. How is a glacier formed?
   c. Why do nomadic herders move their livestock from place to place?
   d. A water passage called a strait connects what?
   e. Name three types of wetlands.

INDEX

2. The Index of Places on pages 110–120 is an alphabetical listing of places in the atlas. The Index also gives a description of the place, its latitude-longitude coordinates, and page number for each place. For example, New Orleans, city in Louisiana, 30°N, 90°W 41

The above entry tells you that the city of New Orleans, Louisiana, can be found at (or near) the point where the lines for 30°N latitude and 90°W longitude meet on the map on page 41. Use the Index to answer the following questions. Circle the correct answer.

a. On which continent is Afghanistan located?
   Africa Asia Europe South America
b. On what page can Florence, Italy, be found in the atlas?
   page 60 page 70 page 80 page 90
c. What are the latitude-longitude coordinates for Montego Bay, Jamaica?
   14°N, 74°W 18°S, 78°E 14°S, 74°E 18°N, 78°W
d. Niilau is part of what island system?
   Hawaii Bahamas Lesser Antilles Izu Islands
e. Where is the city of Pointe-Noire in relation to the Equator? (Hint: Look at the latitude.)
   north south east west
ABBREVIATIONS

3. Abbreviations are used for many words and place names on the maps in your atlas. Use the list of abbreviations on the inside back cover to write the full word or place name for each abbreviation below.

a. Austr. ____________________________
b. Bos. ____________________________
c. Dom. Rep. ____________________________
d. Fr. ____________________________
e. I. or Is. ____________________________
f. L. ____________________________
g. Mt. or Mts. ____________________________
h. Pen. ____________________________
i. R. ____________________________
j. Ra. ____________________________
k. Res. ____________________________

4. Open your atlas to the world map on pages 8–9. Look at the islands near Antarctica. These islands are all territories of other countries. Name the country that administers each island in the table below.

<table>
<thead>
<tr>
<th>Island</th>
<th>Governing Country</th>
</tr>
</thead>
<tbody>
<tr>
<td>South Orkney Island</td>
<td></td>
</tr>
<tr>
<td>Prince Edward Island</td>
<td></td>
</tr>
<tr>
<td>Kerguelen Island</td>
<td></td>
</tr>
</tbody>
</table>

USING YOUR SKILLS

5. Use what you have learned about the atlas to fill in the blanks in the paragraph below.

The largest urban area in Brazil is ____________________________. It can be found on the map on page ______ of the atlas. This city is crossed by the Tropic of ____________________________.

Of the two nearby coastal cities, Santos and Rio de Janeiro, ____________________________ is larger. The national capital of Brazil is ____________________________. The Brazilian city of Santarem is on the ____________________________ River, which empties into the ____________________________ Ocean.
Reviewing Basic Skills
Lesson 1: Location and Distance

DIRECTIONS
1. Open your atlas to the Political Map of the United States on pages 40–41. Locate the compass arrows near the bottom of the map.
   Now find Kansas on the map. (Look in the center of the country.) Locate its capital, Topeka.
   Write the general direction you would travel from Topeka to get to each of the following cities. Use the directions shown on the arrows below.
   a. Omaha, Nebraska
   b. Tulsa, Oklahoma
   c. Independence, Missouri
   d. Des Moines, Iowa
   e. Amarillo, Texas
   f. Little Rock, Arkansas

LOCATION: LATITUDE AND LONGITUDE
2. Latitude and longitude can help you locate places on a map. Turn to the World Political Map on pages 8–9.
   - Lines of latitude run east and west across the map. Look at the right edge of the map. Notice that lines are labeled in degrees (°). Latitude shows the distance north or south of the Equator (0°).
   - Longitude lines run north and south and meet at the poles. Numbering starts at the Prime Meridian (0°). Longitude lines are also numbered by degrees. They are labeled according to their distance east or west of the Prime Meridian.

Draw a line to connect each line of latitude or longitude listed below with a city near it. (Hint: Run your finger along each line of latitude or longitude to find the city.)

<table>
<thead>
<tr>
<th>Latitude/Longitude</th>
<th>City</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. 150°W</td>
<td>• Dhaka, Bangladesh</td>
</tr>
<tr>
<td>b. 30°N</td>
<td>• Anchorage, Alaska</td>
</tr>
<tr>
<td>c. 150°E</td>
<td>• Cairo, Egypt</td>
</tr>
<tr>
<td>d. 60°W</td>
<td>• Buenos Aires, Argentina</td>
</tr>
<tr>
<td>e. 90°E</td>
<td>• Sydney, Australia</td>
</tr>
</tbody>
</table>
LOCATION: RELATIVE

3. Turn to the Political Map of South America on page 57. Find the city of Caracas, Venezuela. It is located near 10°N latitude.

Using latitude and longitude is one way to describe a place’s location. The following questions will help you see some other ways of describing location.

a. Along what body of water is Caracas located?

b. Is Caracas in the northern or southern part of Venezuela?

c. In what direction is Caracas from Bogota, Colombia?

MAP SCALE

4. Turn to the United States Political Map on pages 40–41. At the bottom of the map legend is the scale. This scale shows how distances on the map represent actual distances on the earth. The scale relates map distances to miles.

This is how a map scale is used:

- Place a small piece of paper along the scale so you can see the miles just above the edge of the paper.
- On the edge of the paper, mark the map distances in hundreds of miles. Mark the miles on your scale up to 600. (To get distances greater than 300 miles, slide the edge of the paper along the scale and keep marking at 100-mile intervals.)

The edge of your paper should now look like a map scale. Use it to measure the distance between each of the following pairs of cities in the United States. Write each approximate distance in a multiple of 100 miles.

a. Topeka, Kansas, to Jefferson City, Missouri

b. Charlotte, North Carolina, to Greensboro, North Carolina

c. Akron, Ohio, to New York City, New York

d. Seattle, Washington, to Helena, Montana
Reviewing Basic Skills
Lesson 2: Reference and Thematic Maps

LAND COVER MAPS
1. In this atlas, each continent has a land cover map. Use the Land Cover Map of South America on page 56 to determine whether each of the following statements is true or false. Write T or F in the space provided.
   a. ______ Tropical rain forests are shaded dark green.
   b. ______ The Patagonia region of South America is semi-desert and desert.
   c. ______ Most of the Amazon Basin is cropland.
   d. ______ Most of northern Chile is dry, mountainous terrain.
   e. ______ Much of eastern Brazil has either tundra or glacier land cover.

POLITICAL MAPS
2. Use the Political Map of North America on page 27 to answer the following questions.
   a. Why are Asia and South America colored in a neutral color?

   ___________________________________________________________

   b. What are the two largest countries in North America?

   ___________________________________________________________

   c. What is the southernmost country in North America?

   ___________________________________________________________

   d. Cities are shown with different-sized dots and letters. These sizes tell which cities are larger. Look at the cities on the West Coast of the United States. Is Los Angeles larger or smaller than San Francisco?

   ___________________________________________________________

THEMATIC MAPS
3. A thematic map focuses on a single subject or theme. In this atlas, each continent is represented by the same five types of thematic maps: Elevation, Growing Season, Rainfall, Population, and Land Use. Use the Elevation map of Africa on page 64 to complete the following sentences. Circle the correct answer.
   a. What unit of measure is used on the Elevation Map?

      meters  yards  feet  kilometers

   b. What color in the legend represents areas below sea level?

      light green  dark green  orange  yellow

   c. What is the elevation of most of southern Africa?

      0 to 500  500 to 1,000  1,000 to 2,000  2,000 to 5,000

   ___________________________________________________________
4. Use the Growing Season map on page 64 to complete the following sentences.
   a. According to the legend, blue represents a growing season of under _________ months.
   b. Most of northern Africa has a growing season of ___________________ months.
   c. Of the five growing seasons, __________ are represented in Africa.
   d. Most of central Africa has an ___________________ growing season.
   e. Algeria is the only country in Africa that has an area with a growing season of _________ months.
   f. South Africa has ___________ different growing season ranges.

5. Use the Rainfall map on page 65. Cross out the incorrect word in parenthesis in each of the following sentences.
   a. In the map legend, rainfall is measured in (centimeters, inches) per year.
   b. Areas with the most rain per year are represented with a dark (blue, orange) color.
   c. Most of northern Africa is colored (orange, yellow), which means the region is very dry.
   d. Ethiopia receives more annual rainfall than (Egypt, Nigeria).
   e. South Africa has (four, five) different rainfall ranges.
   f. Algeria receives more rain (farther inland, near the coast) than (farther inland, near the coast).

6. Use the Population map on page 66 to complete the chart below

<table>
<thead>
<tr>
<th>Place</th>
<th>Population</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lagos, Nigeria</td>
<td></td>
</tr>
<tr>
<td>most of northern Africa</td>
<td></td>
</tr>
<tr>
<td>most of Congo</td>
<td></td>
</tr>
</tbody>
</table>

7. Use the Land Use Map on page 67 to match the following places in Africa with their correct land use.

<table>
<thead>
<tr>
<th>Place</th>
<th>Land Use</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. eastern Ethiopia</td>
<td>• Urban</td>
</tr>
<tr>
<td>b. most of Congo</td>
<td>• Commercial farming</td>
</tr>
<tr>
<td>c. Johannesburg, South Africa</td>
<td>• Subsistence farming</td>
</tr>
<tr>
<td>d. most of Algeria's coast</td>
<td>• Nomadic herding</td>
</tr>
<tr>
<td>e. southwestern Egypt</td>
<td>• No widespread use</td>
</tr>
</tbody>
</table>
Reviewing Basic Skills
Lesson 3: Graphs and Special Maps

GRAPHS

1. There are circle graphs for every continent in the atlas. Use the circle graphs on page 49 to answer the following questions.
   a. What does the green color represent on the graphs?
   b. What year does the smaller circle graph represent?
   c. By what percent has the urban population increased from the smaller circle graph to the larger circle graph?
   d. Today, which section of the graph is larger?

2. Use the People per Car graph on page 60 to determine whether the following statements are true or false. Write T or F in the blanks provided.
   a. _____ This People per Car graph shows four countries in South America.
   b. _____ There are seven people per car in Venezuela.
   c. _____ Argentina has more people per car than the United States.
   d. _____ Of the countries represented, Peru has the most people per car.

3. Use the Forestry Exports graphs on page 36 to complete the following sentences. Underline the phrase that correctly finishes each sentence.
   a. Canada exports more lumber than pulp. more newsprint than pulp.
   b. Canada exports most of their forestry products to the United States. Japan.
   c. Canada exports more forestry products to South Korea than China. China than South Korea.

4. Use the Corn Exports graph and Wheat Exports graph on page 46 to match the following products with the percentages consumed and exported.

<table>
<thead>
<tr>
<th>Product</th>
<th>U.S. Export/Consumption</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. Wheat</td>
<td>• 20% exported</td>
</tr>
<tr>
<td></td>
<td>• 48% consumed</td>
</tr>
<tr>
<td>b. Corn</td>
<td>• 52% exported</td>
</tr>
<tr>
<td></td>
<td>• 80% consumed</td>
</tr>
</tbody>
</table>
5. Use the Energy Supply and Demand graph on page 47 to cross out the incorrect word in parenthesis in each of the following sentences.
   a. The United States consumes (more, less) oil than it produces.
   b. There is more coal (production, consumption) than (production, consumption) in the United States.
   c. The United States produces about 20 (billion, quadrillion) BTUs of natural gas per year.
   d. Other energy sources include nuclear, hydroelectric, geothermal, solar, and (coal, wind).

6. Use the Leading Oil Producers graph on page 81 to answer the following yes or no questions. Write Y or N in the space provided.
   a. Does OPEC produce more oil than Russia and Canada combined? ______
   b. Does Russia produce more oil than the United States? ______
   c. Does China produce more oil than the United States? ______
   d. Does the United Kingdom produce more oil than Norway? ______

**SPECIAL MAPS**

7. Use the Elevation Cross Section on page 58 to answer each of the following questions. Circle the correct answer.
   a. Which color in the legend represents the elevation closest to sea level?
      yellow       green       light green
   b. Which color represents the highest elevation?
      orange      brown       yellow
   c. Which area represented in the cross section has the highest elevation?
      Andes Mountains      Moto Crosso Plateau      Brazilian Highlands
   d. Between which two latitudes is this cross section?
      10°S and 30°S
      13°S and 24°S
      15°S and 45°S
   e. Where is the area represented by the cross section located in South America?
      in the north        in the center    in the south

8. Use Brazil’s Size and Shape map on page 60 to complete the following paragraph.
   Brazil is colored ________ , and the 48 states are colored ________ .
   Brazil is ________ square miles in size, and the 48 states are
   ________ square miles in size. Brazil is ________ than the 48 states.
   However, since Alaska and Hawaii are 594,000 square miles, Brazil is ________
   than the entire United States.
The World
Lesson 1: Continents, Countries, and Oceans

LOCATION

1. Use the Continents and Oceans map on page 2 to answer the following questions about continents. Circle the correct answer(s).
   a. Which continent is on the same landmass as Europe?
      Australia    Asia    Antarctica    Africa
   b. Which continents border the Arctic Ocean?
      Asia        Europe    Africa    North America
   c. Which continent is northwest of Australia?
      South America    Africa    North America    Asia
   d. Which continent is south of South America?
      Africa    Australia    Antarctica    Asia

2. Use the Continents and Oceans map to answer the following questions about oceans.
   a. Which ocean is between South America and Africa? ________________________________
   b. Which ocean is farthest north? ________________________________
   c. Which ocean is between Asia and North America? ________________________________
   d. Which ocean is between Australia and Africa? ________________________________
   e. Which ocean surrounds Antarctica? ________________________________

3. Imagine you are travelling between continents, from the center of one to the center of another. Use the Continents and Oceans map to determine which direction you would need to travel and complete the table below.

<table>
<thead>
<tr>
<th>Travel</th>
<th>Direction</th>
</tr>
</thead>
<tbody>
<tr>
<td>Europe to South America</td>
<td></td>
</tr>
<tr>
<td>Asia to Africa</td>
<td></td>
</tr>
<tr>
<td>Australia to South America</td>
<td></td>
</tr>
<tr>
<td>Africa to Europe</td>
<td></td>
</tr>
<tr>
<td>Europe to Antarctica</td>
<td></td>
</tr>
<tr>
<td>North America to South America</td>
<td></td>
</tr>
</tbody>
</table>
USING GEOGRAPHY

4. Use the Political Map on pages 8–9 to determine whether each of the following statements is true or false. Write T or F in the blanks provided.

a. _____ Spain borders Portugal to the east.

b. _____ Moscow, Russia, is in Europe.

c. _____ Mozambique is Africa’s southernmost country.

d. _____ Mongolia is bordered by China and Russia.

e. _____ The Tropic of Cancer crosses Australia.

f. _____ Saudi Arabia is part of Africa.

g. _____ Chile borders Argentina to the west.

h. _____ The Arctic Circle crosses the Southern Ocean.

5. Use the Political Map to answer the following questions.

a. What is North America’s southernmost country?

b. What is South America’s largest country?

c. Which African country is also in Asia?

d. Which country is southeast of Australia?

e. Which Asian city is larger, Vladivostok or Shanghai?

f. About how many miles is Cairo from Moscow?

g. In what country do 30°N and 60°E intersect?

h. What is the national capital of Argentina?

i. Greenland is the possession of which small European country?

PLACE

6. Use the Political Map to complete the table below.

<table>
<thead>
<tr>
<th>Country</th>
<th>Continent</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bolivia</td>
<td></td>
</tr>
<tr>
<td>India</td>
<td></td>
</tr>
<tr>
<td>Sudan</td>
<td></td>
</tr>
<tr>
<td>Sweden</td>
<td></td>
</tr>
<tr>
<td>Mexico</td>
<td></td>
</tr>
</tbody>
</table>
